

**COMPOSITIONS AND METHODS TO INCREASE THE
EFFECT OF A NEUROTOXIN TREATMENT**

ABSTRACT OF THE DISCLOSURE

[00107] The present invention discloses compositions and methods for enhancing the effect (e.g., duration) of a neurotoxin treatment. The compositions herein include neurotoxins and neuron growth inhibitors. Such compositions are administered locally to treat or prevent conditions, such as dermatological conditions, urological conditions, thyroid conditions, optical conditions, and neurological conditions.
